Dimensions:

745 x 285 x 600mm

Weight:

11.95kg

Guidance:

Transportation - care must be taken when transporting components, ensuring that all parts are secured in their storage and unable to become loose. Straps are used in appropriate areas and there is no risk of the strap fraying or becoming cut by any sharps.

Handling - care must be exercised when manually handling components, in line with manual handling procedures.

Storage - all components must be stored in a manner that limits any detrimental environmental effect due to weather or corrosive substances. Please note the safe working load on each storage component prior to loading and stacking.

Inspection - routine inspections should be schedules, it is best practice to inspect the fixing frames before each work shift and after any occurrence which could affect the integrity. All components should be properly maintained and examined before use.

Fixing Instructions:
